# EnviroCase

Protection for Personal Computer Equipment

Everyone knows that a dusty or dirty environment can cause damage to your personal computer. Don't wait until a catastrophe occurs, protect your data and your investment with an EnviroCase. The EnviroCase is perfect for garages, factories, laboratories and workshops.

Just place your computer inside the rugged, steel enclosure and guard it against spills, dust and other contaminants. The keyboard tray has a removable lid and is large enough to house a trackball and full-size keyboard. The unique front panel design can be oriented for desktop or tower style computers. The cooling system includes an intake filter, an exhaust filter, and a powerful fan which creates a positive pressure environment to prevent dust from getting in your system. Unlike expensive alternatives, the EnviroCase comes complete with keyboard tray, filtered-fan cooling system, power strip and equipment seat belts. Stand-up and Sit-down models include printer shelves and lockable casters.

## **Front Panel**

For desktop computers or rotate for tower style

## **Window**

3/16" Plexiglass

## **Power Strip**

6 outlets with circuit breaker

## **Door**

Access to computer with keylock and thumb screws

## **Casters**

Lockable swivel & rigid

## **Heavy Duty**

Welded steel construction

## **Seat Belts**

Protects equipment during moving

## **Keyboard storage**

Tray with detachable lid to house full-size keyboard and track-ball

## **Front Door**

With handle and keylock

## **Sliding Shelf**

Easy access to printer

## **Stationary Shelf**

## Rear View

## **Gasketed seams**

Prevent debris entry

## **Cooling System**

Filtered fan intake and exhaust creates positive pressure. Covers protect against direct spills, opening on bottom

## **Rear Door**

Lockable access to entire computer system

## **Cable Exit Panel**

Split panel eliminates opening

## Three Models To Choose From

# EnviroCase

Protection for Personal Computer Equipment

## Desktop

Model 100

Only

**\$999.00**

When your computer must sit on top of a desk or table, the model 100 can do the job. Complete with rubber feet to protect surfaces or bolt the unit down using the 4 holes provided. An adjustable floorstanding pedestal is also available for \$299.00. Case dimensions are W-24" x H-24" x D-26". Keyboard tray is W-24" x H-2 1/2" x D-9".

## Sit-Down

Model 200

Only

**\$1699.00**

The model 200 sit-down Enviro-Case is made for applications requiring operation from a chair. Complete with casters and printer shelves. Case dimensions are W-24", H-51 1/2", D-26". Keyboard tray is W-24" x H-2 1/2" x D-9".

## Stand-Up

Model 300

Only

**\$1799.00**

The model 300 Enviro-Case is constructed like the model 200 but with extra height for standing operators. Lower cabinet has plenty of room for multiple printers or other computer equipment. Case dimensions are W-24", H-63 1/2", D-26". Keyboard tray is W-24" x H-2 1/2" x D-9".
